Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...

- ➔ Collaboratively develop and enact a shared vision for the school, to provide clarity and purpose for meaningful learning, teaching and post-school pathways for students.
- ➔ Collaboratively develop a clear, explicit and research-informed, whole-school approach to pedagogy that is reflective of the local context, that articulates a shared understanding and appreciation of the pedagogical expertise that exists within the school.
- ➔ Review and enhance current student management approaches to create consistent expectations to support staff to successfully re-engage students in their learning program.
- ➔ Build a shared understanding and commitment to inclusive education for teachers to be able to engage, challenge and extend the full range of students, and measure progression against agreed targets.
- ➔ Collaboratively develop a whole-school approach to build data literacy skills of teachers to identify the next steps in student learning, measure student growth and inform teaching strategies.
