Expression of Interest form emailed to laptops@brackenridgeshs.eq.edu.au or hard copy returned to our Front Office

In an increasingly digital world, access to a reliable personal device is essential for every student’s learning and success. At Bracken Ridge State High School, technology is embedded in teaching and learning, and students are expected to engage with a range of online platforms as part of their curriculum.

The Student Laptop Resource Scheme provides families with the opportunity to access a high quality, fully supported laptop for their child. This ensures every student has a device that is ready for learning and fully compatible with all required Education Queensland platforms.

Important: For Year 7–9 (2027), only school-provided laptops can be connected to the Bracken Ridge State High School network. Privately owned devices cannot be connected to the school network until Year 10.

A Fully Managed IT Solution

This scheme is more than just a device—it is a comprehensive, school-managed IT service designed to support your child’s education.

- All required educational software installation and updates (Microsoft Office, QLearn, Teams, Compass, ClickView, OneDrive, Education Perfect, Stile)
- Secure school network onboarding
- Antivirus protection
- Internet filtering at school and home (at parent request)
- Onsite technical support via the school Tech Desk
- Warranty and repair management
- Loan devices during repairs
- Accidental Damage Protection (ADP) and claims management (Excess does apply)

Benefits for Families and Students

- Consistent and compatible devices across all subjects
- 24/7 access to learning resources
- Reduced technical burden on families
- Commercial grade devices
- Onsite support (8:10am – 4:00pm)
- The device becomes the property of the family after the final payment is completed

Due to ongoing global supply chain challenges and anticipated increases in device costs, we are requesting an **early Expression of Interest (EOI) and initial deposit**. This allows the school to secure sufficient stock at the best possible price and ensures all students have access to a device at the start of the school year.

We ask that you return this form as an Expression of Interest to assist with planning and procurement.

An **ICT Acceptable Use Agreement** is also required and is available via the school website or from the School Administration during office hours:
